Two years

Position Title:

Environmental Health Specialist I

Best part of your job:

The most rewarding thing about my job is that our office is a great working environment with an approachable director, staff, and supervisors. Another great thing is the ability to make my own schedule/agenda with my route book.

Position Title:

Environmental Health Specialist I

Best part of your job:

The culture everyone has created in the office makes working there so rewarding. When I first started everyone was so welcoming and willing to answer ALL my questions. In addition, the fun thing about this job is that we aren't just stuck in a cubicle. We go out and conduct inspections. I have my own district, and I get to create my own agenda and decide what facilities I want to inspect each day.
